

# Pydeia

Know Yourself. Find Your Path.

The end of school is approaching  
What's next?

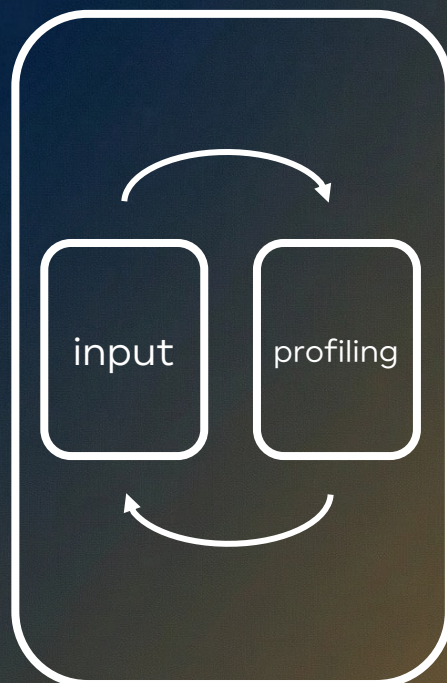

You want to study at uni  
But which one?

Pydeia is here to help you choose  
The right path for your future!

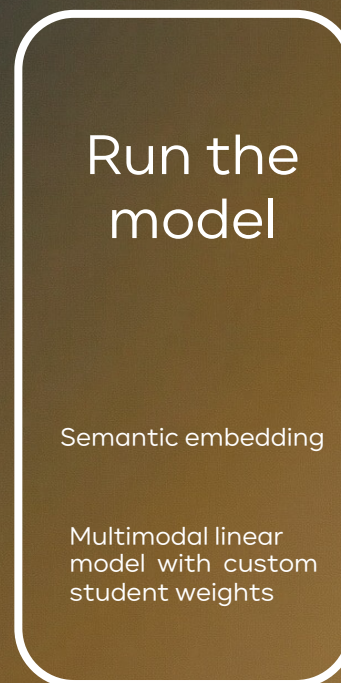

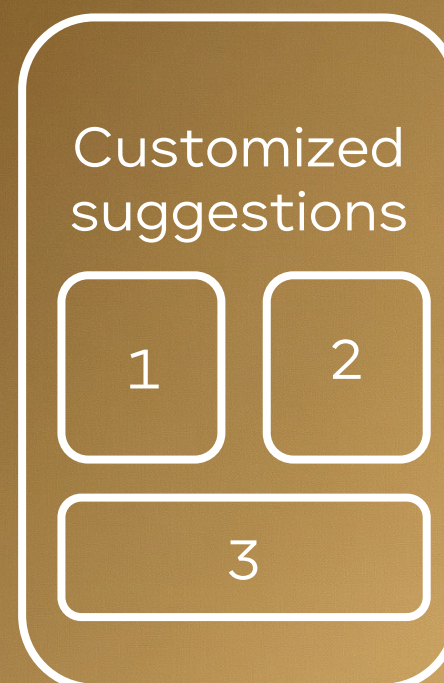

## Phase 1

## Phase 2

## Phase 3

# Limitation and scaling potential

Lack of data to get statistics on performance

Token limit to tune the LLM for our scopes (parameters & prompt engineering)

Currently limited to Italian universities, but easily scalable globally

Potential bridge between high school graduates and universities

Huge business to sell student's profiles to universities for efficient advertising, or a platform that ensures that high quality students match hard universities

Onto the implementation!  
Thank you for your attention
